

EARTHWISE LIVING
in LEON VALLEY, TEXAS

Earthwise Living Committee

Presents

A Texas Rainfall Catchment Workshop

Featuring Ms. Susan Ouline

“ALL ABOUT RAIN BARRELS”

FREE ADMISSION – Saturday, May 1, 2010 9:00 – 11:00 am

Leon Valley Conference Center • 6421 Evers Road • 681-1232

(between 410 West and Huebner Road, across from Raymond Rimkus Park behind the Library)

A free educational event, featuring Ms. Susan Ouline, a Certified Master Naturalist who will discuss Rainwater Harvesting, different types of rain barrels, building rain barrels and offer a bulk buy purchase for parts or a fully assembled rain barrel for participants who are interested.

This is a wonderful opportunity for residents and business property owners to install rainwater collection systems for landscape irrigation and move towards sustainability.

Come out and have a great time!
